

# Year 6 Spring Bulletin 2025

Our topic this half term is **Winter Days**

Welcome back to Nursery, Happy New Year, I hope all the children had a wonderful Christmas and had a good rest.

This half term we will be learning and discussing Winter. In our learning we will be looking at how we can look after ourselves in the colder weather. Children will be doing this by sorting clothes, making sets and matching activities. We will be looking at how to take care of animals in the winter.

Nursery will be looking at the weather and comparing our weather to the Antarctic and looking at animals that live in Antarctica. As the children will become Arctic Rescuers, learning how to help the animals, rescuing them from the ice/ snow, making and designing animals homes to keep them safe. We will be making bird feeders to help feed the birds in the Winter.

In P.E Nursery will be going for Winter walks, listening and spotting different birds we can see.

We will also be looking at how to keep warm by moving around in different ways.

Within this half term we will be celebrating St. Dwynwen Day the Welsh Patron Saint of Love, we will be using new Welsh vocabulary and learning through relative activities. The children will be doing Welsh Country Dancing, which will be shared with you.

We will be continuing with our RWI sounds and our independent writing skills through our activities. We look forward to seeing you on **Tuesday 7th January**.

Diolch, Mrs Thwaite

## Ways to help at home this half term:

Continue with RWI sounds

Helping your child write their own name

Counting up to 15 forwards and backwards

Making sets using household items/ toys

Discuss the Antarctic and animals that live there
